CENSUS OF CENTRAL GOVERNMENT EMPLOYEES

(AS ON 31st March, 2001)

INTRODUCTION

1.1 The Government of India, Ministry of Labour (Directorate General of Employment & Training) has been conducting since 1960 the “Census of Central Government Employees” with 31st March as its reference date. The present report, which is twenty-ninth in the series, covered Central Government Employment as on 31st March, 2001. The main purpose of the Census was to provide employment details on aspects such as pay-ranges of employees, sex-structure, status, tenure of service, group of posts (Gazetted/non-gazetted), location by States and Class of cities.

SCOPE, COVERAGE, CONCEPTS & DEFINITIONS

1.2 The Census covered all employees holding civilian posts under Central Government Establishments which existed on the 31st of March, 2001 and whose pay & allowances, honoraria or any other remuneration were paid out of the consolidated Funds of India. The Returns prescribed and used for collection of Census data are placed at Annexures 1.1, 1.2 & 1.3. These inter-alia as an agenda contain suitable explanatory notes on the coverage, concepts and definitions adopted for the conduct of Census Enquiries. These could be seen from Annexure 1.4.

METHODOLOGY, LIMITATIONS AND ESTIMATION OF NON-RESPONSE

1.3 The basic data under the Census was collected from almost all Central Government Establishments born on the “Employer’s Register” maintained at the Employment Exchanges through their net-work spread all over the country. However, Census returns duly filled-in by the Employers could be received from only 5164 establishments out of 7777 establishments. The response was thus around 66.4%.

1.4 In order to arrive at total number of regular Central Government Employees, other secondary sources such as Annul Reports of the Ministries/Departments, direct collection of data from Ministries/Departments and Information on Central Government Employees (Ministry/Department wise as on 1-1-2001) compiled and maintained by Department of Personnel & Training have been utilised. The above data sources have been used to arrive at the total number as the rate of response for the Census was around 66.4%. With formation of Bharat Sanchar Nigam Limited (BSNL), Department of

Telecommunications is passing through transition period. There are good chances of variation in the figures for the Ministry of Telecommunication & I.T. and thus also for the total employment of Central Government.

1.5 Thus the figure of total number of Central Government Employees (38.76 lakhs) mentioned in various Tables is compiled through administrative records as above, however, the distribution of employees category wise shown in the table numbers 3, 4 & 7 and Annexure 2.3 have been estimated on the basis of proportion arrived by using information received from the Census establishments i.e from 5164 establishments out of 7777 establishments. Further, the data presented in Table 9 on State wise employment is based on Employment Market Information (EMI) data and the information in respect of Mission abroad and Civilian Para Military forces etc., has been obtained from other administrative sources and such information is not classified at the State level.

EMPLOYMENT UNDER CENTRAL GOVERNMENT

2.1. The total number of regular civilian Employees under Central Government Establishments as on 31st March, 2001 was 38.76 lakhs. The following table shows overall changes noticed in the level of Central Government Employment (regular) as on the 31st of March, 1995 & 2001.

These five Ministries taken together accounted for 89.34% or say 90% of the total Central Government Employment. The residual employment (10.66%) was shared by all other Ministries/Departments.

WOMEN EMPLOYMENT UNDER CENTRAL GOVERNMENT

2.3. Women employment under Central Government has been found to the extent of 2.92 lakhs, which is only 7.53 per cent of the total regular Central Government Employment. Women employees together with their proportion in the total employment in the major employing Ministries for the year 2001 is shown in Table-3.

Ministry-wise break-up of employees according to their status can be seen from results presented in the Annexure 2.1.

2.5. Further analysis of data has revealed that among the regular Central Government Employees over-all share of “Gazetted Employees” was found to be of the order of 5%. In the case of Non-gazetted employees their share in total employment was of the order of 95%.

2.6. The ratio of Gazetted to Non-Gazetted employees was as high as 1:115 in the Establishments under Ministry of Railways. The overall ratio however, works out to 1:19. Ministry-wise details are given in Table-5.

CLASSIFICATION OF EMPLOYEES BY GROUP OF POSTS HELD:

2.7 The data collected from the employing establishments through the Census Enquiry of 2001 indicates the following proportions in Central Governments Employees by Group of posts i.e Group A, B C & D.

Table-6

**REGULAR CENTRAL GOVERNMENT EMPLOYEES CLASSIFIED BY
GROUP OF POSTS HELD
(2001)**

The data above reveals that bulk of employees held either group 'C' or Group 'D' posts, their shares being 64.83 per cent and 28.52 per cent respectively. As against this, group 'A' & 'B' posts (inclusive of the non-gazetted in group 'B') had meagre shares of 2.53 & 4.12 percent respectively.

CLASSIFICATION OF EMPLOYEES BY PAY-RANGES

2.8 The concept of pay used under the Census Enquiries refers to the basic pay and hence may be interpreted to exclude other allowances or special pay etc. that are also admissible to Central Government Employees. The strength of Employees in various pay-ranges are shown in table-7 for the year 2001.

Table – 7

Total	3876395	100.00

From the above Table, it is revealed that the maximum proportion of employees were found to be in the Pay range of Rs. 3500-4499 and minimum number of employees were in the pay range of Rs. 18400 & above. The distribution of employees by various pay-ranges in major Ministries/Department is given in the Annexure-2.3.

DISPERSAL OF EMPLOYEES IN CLASSIFIED CITIES:

2.9. Central Government Establishments under the Census Enquiries furnish details of their staff actually working in each of the A-1, A, B-1, B-2 and C class cities. In the case of those establishments who did not furnish details about their staff strength for each class of cities, the entire staff has been considered to have been working in the same city where the reporting establishment is located. The location of regular Central Government Employees in different Class-A-1, A, B-1, B-2 and other class cities has been presented in Table-8.

Table - 8

2.10. It is observed from the data in the above table that around 18.5% of the regular Central Government Employees were posted in four (4) "A-1" Class Cities and around 4 per cent were reported in three (3) Class-"A" Cities. Maximum (6.9%) were reported in the National Capital Territory of Delhi followed by Brihan Mumbai (4.69%), Kolkata (4.23%) & Chennai (2.70%). 8.87% of the employees were reported to be working in B-1 Cities & around 16.8% in B-2 class Cities. 51.65% of the employees were reported to be working in class 'C' and other unclassified Cities.

STATE-WISE SPREAD OF CENTRAL GOVERNMENT EMPLOYEES

2.11. The State-wise locations of Central Government Employees for the year 2001 have been shown in the Table-9. The data presented in this table have the following limitations:

The Census returns are usually collected direct from the employing establishments. The area jurisdiction of these establishments is considered as the basis. However, in the case of some major Ministries/Departments their jurisdiction posed certain administrative difficulties. For example, some reporting establishments who actually render data/information in the prescribed Census forms under the Ministry of Railways, Ministry of Communications & I.T cut-across the State boundaries. The data collected from these establishments infact is not necessarily belonging to the areas where these establishments are located but in many cases the Central Government Employees employed by such establishments as per their work distribution belong to other state location also. Hence the results obtained and presented in this report, particularly in the table-9, have to be viewed with due caution. However, attempts have been made to bifurcate to the extent possible.

Secondly, some establishments who employ sizeable number of employees deploy their personnel on need basis to other state and their employees constantly keep moving from one location to other. As such the mobile personnel (civilian para military forces) engaged by Central Organizations such as Central Reserve Police Force (CRPF), Border Security Force (BSF), Central Industrial Security Force (CISF), Indo Tibetan Border Force (ITBF) & Assam Rifles etc., have been shown in the Census data in Table-9 separately and are not classified at the State level.

TRENDS OBSERVED FOR CERTAIN FEATURES OF REGULAR CENTRAL GOVERNMENT EMPLOYMENT

3.3 In the past two decades certain important features of regular employees have been noticed through the trends emerging out of the data thrown by the Census Enquiries. These relate to the analysis of employees by sex, status & tenure of the post, which were held by Central Government Employees. The data in the following table presents summary results:

It is interesting to note that the proportion of women employees has been steadily increasing during the years under review. Their proportions in the total Central Government Employment improved from 2.51 percent in 1971 to 7.53 percent in 2001. It is also seen that Central Government Employees in larger proportions are now holding permanent status in the Government posts. The ratio of Gazetted to Non-Gazetted officers which was as high as 49 in 1971 has come down to 19.
